Introduction of CimFAX

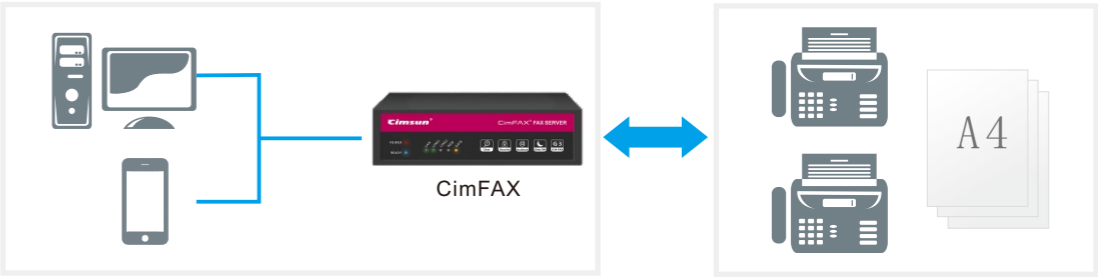

CimFAX fax server is a hardware-and-software integrated fax device.

With CimFAX, you can send and receive faxes right from your PC, mobile phone and tablet. You can also have faxes auto saved to folders or get faxes in your email.

Unlike online fax services, CimFAX is an in-house fax server. No third party involved. No monthly fees required. With CimFAX fax server, you can fax safely on the go.

Fax from PC or smart phone

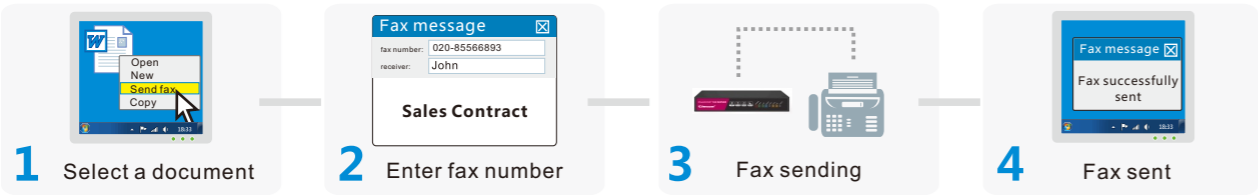

You don't have to use a fax machine again.
(Mobile Apps coming soon)
